

BRIDGEPORT SCHOOL SHERMAN OAKS SUMMER SCHOOL

July 10th - August 4th

We are pleased to announce the dates for summer session for all students are:
MONDAY JULY 10TH through FRIDAY AUGUST 4

Research shows that students with special needs require the reinforcement of instruction on an ongoing basis to foster retention and transition smoothly to the next grade level.

Utilizing our Career Technical Education (CTE) Program curriculum with a focus on technological advancements, students will explore and navigate each week of summer school with an emphasis on the following academies:

- Careers
- Transportation
- Cooking and Health
- Communication

For current Help Group students, please contact your school's administration office for more info. For new students, please contact The Help Group admissions office at 877-943-5747 or admissions@thehelpgroup.org.

To learn more please visit thehelpgroup.org/summerprograms.

WEEK 1 CAREERS

Hey there, future superstars! Are you ready to embark on an epic journey of discovering the coolest and most exciting careers of the future? Well, students, get ready to buckle up because we're taking you on an adventure through our incredible career academies! From Agriculture to Fashion & Design, Media Lab to Education, Construction to Hospitality, we've got it all covered!

But that's not all, students! As a team, you'll work on a thrilling project where you get to flex your creative muscles and design a cool presentation on a selected career. Your presentation will cover everything from technology and knowledge to skills, abilities, work tasks, education, work styles, work values, wages, and employment trends. So, get ready to showcase your superstar potential and make your mark on the world of work!

WEEK 2 COOKING & HEALTH

Hey there, students! Are you ready to become food wizards and learn about the wonders of nutrition? Well, get ready to dig in because we've got a delicious lesson planned for you! We'll be exploring how current food trends have travelled back in time to become more organic and healthy.

But wait, there's more! We'll also be learning about what goes into our food, including those pesky preservatives, and what makes a meal truly healthy. Plus, you'll get to choose a healthy meal to prepare in class and show off your culinary skills!

We'll teach you everything from how to read a recipe to making a shopping list, purchasing ingredients, and cooking/baking your meal right here in school. And the best part? You'll be able to recreate the meal at home with ease! You'll even get to practice measuring and pouring with adapted measuring cups, and get hands-on experience with various kitchen appliances.

But of course, safety always comes first, so we'll also cover important tips and guidelines for handling cooking equipment. So let's get cooking, students, and whip up some delicious and nutritious meals together!

WEEK 3 TRANSPORTATION

Hey there, adventurers! Are you ready to journey through time and explore the exciting world of transportation? Get your backpacks ready because we're taking you on an epic ride! We'll be learning about the different types of transportation in the past and discovering the awesome modes of transportation that are available in our community today.

But wait, there's more! As a team, you'll be working on a super fun project where you'll design an itinerary for a virtual or actual trip. Your itinerary presentation will cover everything from planning your trip and reading route maps and schedules, to understanding how to use online trip planning tools. Plus, you'll learn how to get to and from bus stops, identify and board buses, make transfers, and be safe and aware at bus stops, transfer points, transit centers, and on buses. We'll also teach you what to do in an emergency, how to follow transit etiquette, and communicate your needs to the driver.

So buckle up, students, and get ready to embark on an exciting adventure through the world of transportation!

WEEK 4 COMMUNICATION

Hello, tech-savvy students! Are you ready to learn about the fascinating world of communication? We're taking you on a thrilling journey through time where we'll explore how communication has evolved over the years with the help of technology.

But that's not all! We'll be diving deep into how we use devices to communicate and the amazing benefits of social media and communication, but we'll also be learning about the potential dangers of social media.

And the best part? You'll be working together to develop a super cool CYBER SAFETY campaign! Your presentations will cover everything from precautionary methods to staying safe using text, email, and social media. So let's brainstorm together and come up with innovative ways to keep ourselves safe in the digital world!

Get ready to unlock the secrets of communication, my dear students, and become masters of cyber safety!
