

Vocational Training and Employment Opportunities

Presented by

Pamela Clark MA

Director of Autism Schools

The Help Group

Purpose

Focus on vocational training and employment opportunities for individuals with Autism Spectrum Disorder (ASD)

Considerations:

- Model Programs
- Important Components of Vocational Training Programs
- Technology and other advances to promote increased opportunities
- Next Steps and Recommendations

Model Programs

Few businesses have formalized their own employment training programs designed to serve individuals with ASD.

The businesses that have pioneered in the field include:

- Goodwill
- The Salvation Army
- Walgreens

Goodwill

Utilizes a Transitional Employment Program designed to hire, promote up, and promote out individuals with barriers to employment. The key components of the program are:

- Hire
- Promote Up
- Promote Out

Salvation Army

Developmental Disabilities Program (DDP) has been in existence for 30 years.

- Residential Services Program
- Community Options Program
- Supported Employment Program

Currently only available in Pennsylvania and Delaware

Walgreens

The REDI (Retail Employees with Disabilities) Program will roll-out in 2013- Walgreens will partner with agencies in the community.

- ✓ Store manager trains the agency job coach.
- ✓ Job coach trains the externs.
- ✓ Evaluation of employee by store manager
- ✓ Placement with either Walgreens or other similar retail stores

Businesses that Partner

- Many businesses are willing to train and employ individuals with ASD however they do not have their own training program.
- In this scenario partnering agencies are responsible for assessing the skills required for the various jobs, job coaching and evaluation of the interns.
- Some businesses that follow this model include: Best Buy, Fresh and Easy, Kmart, Dollar Tree and Petco, Sharkeys.

Components of a Vocational Training Program

The Help Group's Bridgeport Vocational Education Program and Sunrise School

- Serve young adults between the ages of 18 and 22 with special needs.
- The programs work to promote growth and development using a structured curriculum combining classroom instruction with real-world application.

Vocational Ed Programs

Four phases of the programs:

- Acquiring the basic knowledge.
 - Understanding Concepts
 - Practical Application
 - General Application
- The ability to interact with co-workers and supervisors is essential in job retention.
 - The programs place strong emphasis on social skill development.

Assessment

While Career Development curriculum provides instruction at various levels, effective assessment and accurate evaluation are essential. Assessment should drive instruction.

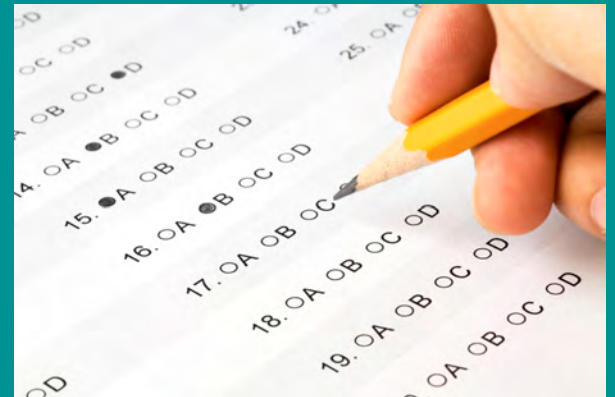

Career Inventories:

- Combination of formal and informal assessments
- Interviews
- Observation of the individual

Evaluation

Evaluation can occur at various levels

- Self-Evaluation
- Staff Evaluation
- Job Site Evaluation

Vocational Training

Provides hands-on learning through managing and working at on-campus businesses in addition to receiving site-based training at local community businesses and establishments.

Vocational Training

Simulated Work Environment

- Pair classroom instruction with various multiple classroom businesses and school-wide enterprises.
 - E-Commerce
 - Student run café and coffee shop
 - Campus maintenance
 - Gardening
 - Clothing Resource Program
 - Student Run Store
 - Various Office Jobs and Errands

Vocational Training

Off-Campus Internships

– Job coaches provide support to the individual within a real-world work experience in a natural environment.

- Best Buy
- Walgreens
- Dollar Tree
- Kmart
- YMCA Preschool
- Regal Cinemas
- Sharkey's Restaurant

Internship Considerations

Internships are designed to provide a realistic, meaningful work experience for the individual.

- Length of work shift
- Length of internship
- Tasks
- Intern expectations
- Role of the manager
- Role of the job coach

Accommodations in the Workplace

Effective accommodations in the workplace include:

- adjustment in schedules
- supported instructions
- job procedure modifications
- facilitation of employee interactions

Not all of these accommodations will be necessary and each situation should be considered on an individual basis.

Looking to the Future

Technology and Other Advances that can promote increased employment opportunities

For individuals with ASD technology and other advances are often critical to their success in the workplace.

Technology and Applications

See PDF on your flash drive for the complete list of Applications and other technology used to assist individuals with ASD

The lists are arranged for use in home, transition and the workplace itself. They are also categorized by level of disability:

- Moderate/Severe
- Mild/Moderate
- Average/Gifted

Appendix C - Combined List

Technology and Applications for Individuals with Disabilities

Recommendations

As the number of individuals with ASD exiting the school system increases, programs and support systems will have to improve in several key areas including:

- Family Participation
- Interagency Collaboration
- Awareness

DESCRIPTONS

Technology and Applications for Individuals with Disabilities

ASD Timer	Shows the passing of time without the need to tell time thus reducing the amount of transition time between tasks, increasing appropriate behavior during transitions and developing independence and self-management skills.
A Personal Assistant	Organizes your accounts, including online shopping, banking, Netflix and more. It also tracks cell phone minutes, frequent flyer miles, travel itineraries and more.
Allrecipes.com Dinner Spinner	Get ideas for cheap, healthy and/or comfort food meals.
Answers: powered by Yahoo!	This app opens your iPhone to the Yahoo! Answers portal so that you can ask questions about anything.
Apartments	Apartment guide's app will help you locate properties in your area.
Apartments by ForRent.com	Look up apartments to rent in your college town here.
Art Lite	Study the histories, works and significance of artists like Leonardo da Vinci, van Gogh, Cezanne and more.
AudioNote	Syncs audio in real time to your notes.
Audiotorium Notes	Similar to AudioNote, but doesn't need to be synced to iPad or computer – it automatically places the notes in the "cloud."
Augie AAC	Multi-function app with built-in schedules, a one-touch critical communication feature. User defined voice output communication categories are available to support functional communication needs as well as voice output prompting/task cues, behavioral support systems, social scripts, self-regulation strategies along with user defined conversation starters.
Autism News Reader	Grabs the top stories from the best autism health news and information sites and delivers them to your iPhone or other device.
Autism Scheduler	Everything you need to customize word, picture and/or weekly visual schedules.
Autism Timer	A digital timer that shows the elapsed time clearly and is easy to use.
AutisMate	Allows those with autism to become more independent by focusing on both behavior and communication by creating interactive scenes of an autistic person's environment. These familiar scenes make it easier for those with autism to learn communication skills, functional skills, routines, social skills, and other skills.
Big Keys	The easily adaptable keyboard can be used for students with fine motor difficulties. The sticky key feature also allows students to type at a fast pace without hitting different keys simultaneously. Can be used in any job setting where printed information is needed, for instance, signing in/out, providing personal information and job interests/experiences.
Book Bargain	Find deals on books from Amazon and other online stores.
Brain Tutor 3D	Anatomy and pre-med students can study the brain terms and more with this app.
Calm Counter	A visual and audio tool to help people calm down when they are angry or anxious.
Cha-Ching Pocket Money Manager	An application designed to track pocket money (be it in their wallet, money box, with their parents, and/or in a bank account) and save up for goal purchases.
Cheap Talk 8	The Cheap Talk 8 is a speech generating device which stores up to 48 5-second messages. Messages can be recorded and re-recorded as often as needed to adapt to any job environment.

Choiceworks	An essential learning tool for helping complete daily routines (morning, day, & night), understand & control feelings and improve waiting skills (taking turns and not interrupting).
Clicker Writer	The Clicker Writer is a talking word processor. Individuals can type into the keyboard, or click on items in the Clicker Grid to send them into Clicker Writer. Words can be heard before they are typed or after what has already been typed. Multimedia presentations and talking books can be made.
Communication Skills	Covers basic communication topics including: Non-Verbal Communication, Listening Skills, and Verbal-Speaking.
Cook Mobile	Teaches the basic principles and techniques of food preparation. Learn from recipes and videos about "how" to cook, not "what" to cook.
Cozi	Manage your calendar, shopping lists, to do lists and journal while you're on the go.
Dana	The one-to-one Alpha Smart-a type-to-text portable word processor. It is wireless and can be used for just about any typing need. It is wireless and has wi-fi capability for convenient usage on the job.
Dial Zero	Get connected to customer service lines for credit cards, health insurance companies and more.
Diigo	Helps organize, manage, store and search for bookmarks of online resources. Valuable as a research tool and includes "sticky notes" and "highlighter" features.
