# Neural Signatures of Autism

- State markers: dysfunction in children with ASD relative to siblings and typical children.
- Trait markers: shared dysfunction in siblings and children with ASD
- Compensatory mechanisms: enhanced activity unique to siblings

- State: ASD < TD & ASD < US
- Trait: US < TD & ASD < TD
- Compensatory: US > TD & US > ASD

Can we see autism's signature in the individual brain?

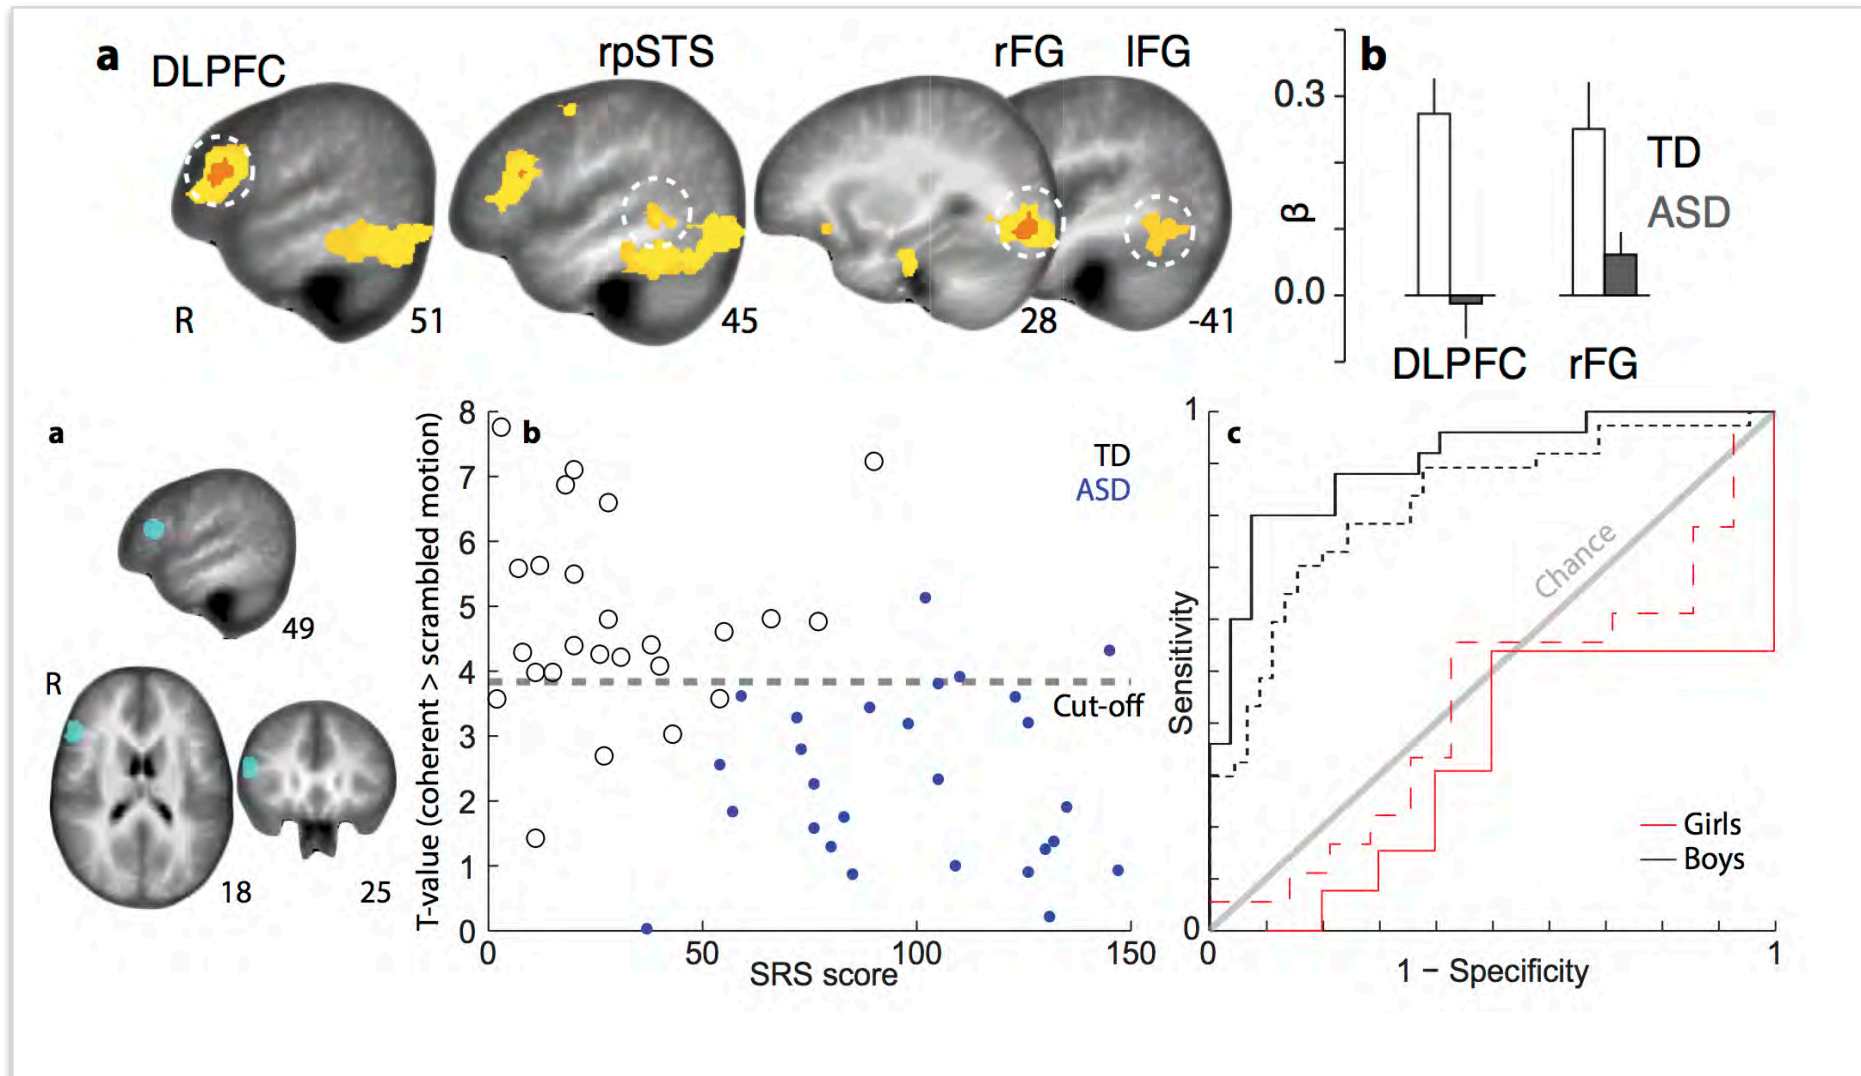

# Classification Analysis

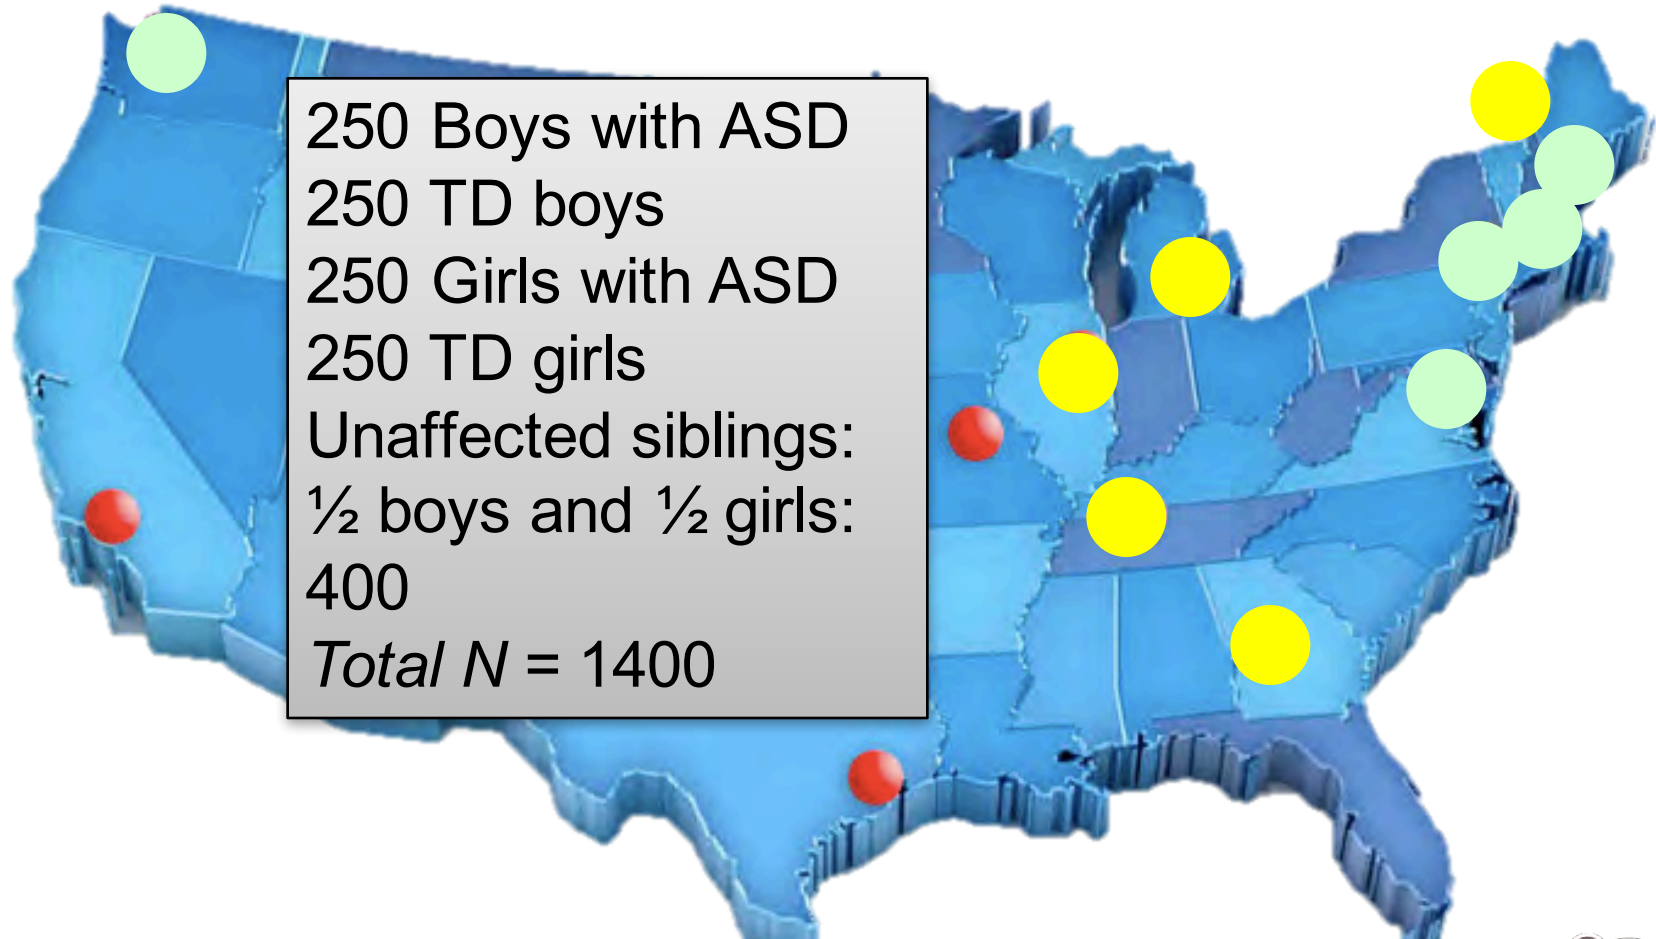

- In each ROI:
  - Trained classifier on Discovery cohort brain responses
  - Predict the diagnostic categories of the Replication cohort
- Significance assessment
  - Permutation testing
    - 1001 permutations
  - FDR control for multiple comparisons

# A weak response to biological motion is a marker of autism in boys (but not girls!)

Björnsdotter et al., *JAMA: Psychiatry*, 2016

## Sex differences in brain response to coherent versus scrambled biological motion

ASD ♀ > ASD ♂

Cerebellar view

Right temporo-occipital view

Left temporo-occipital view

Left frontal view

ASD ♀ > TD ♀

Left amygdala  
Left thalamus

Medial view

TD ♂ > TD ♀

Medial view

♀: female; ♂: male; dmPFC: dorsomedial prefrontal cortex; FFG: fusiform gyrus; ITG: inferior temporal gyrus; pSTS: posterior superior temporal sulcus vmPFC: ventromedial prefrontal cortex

ASD ♀ > ASD ♂

Right hemisphere view

## Girls

## Boys

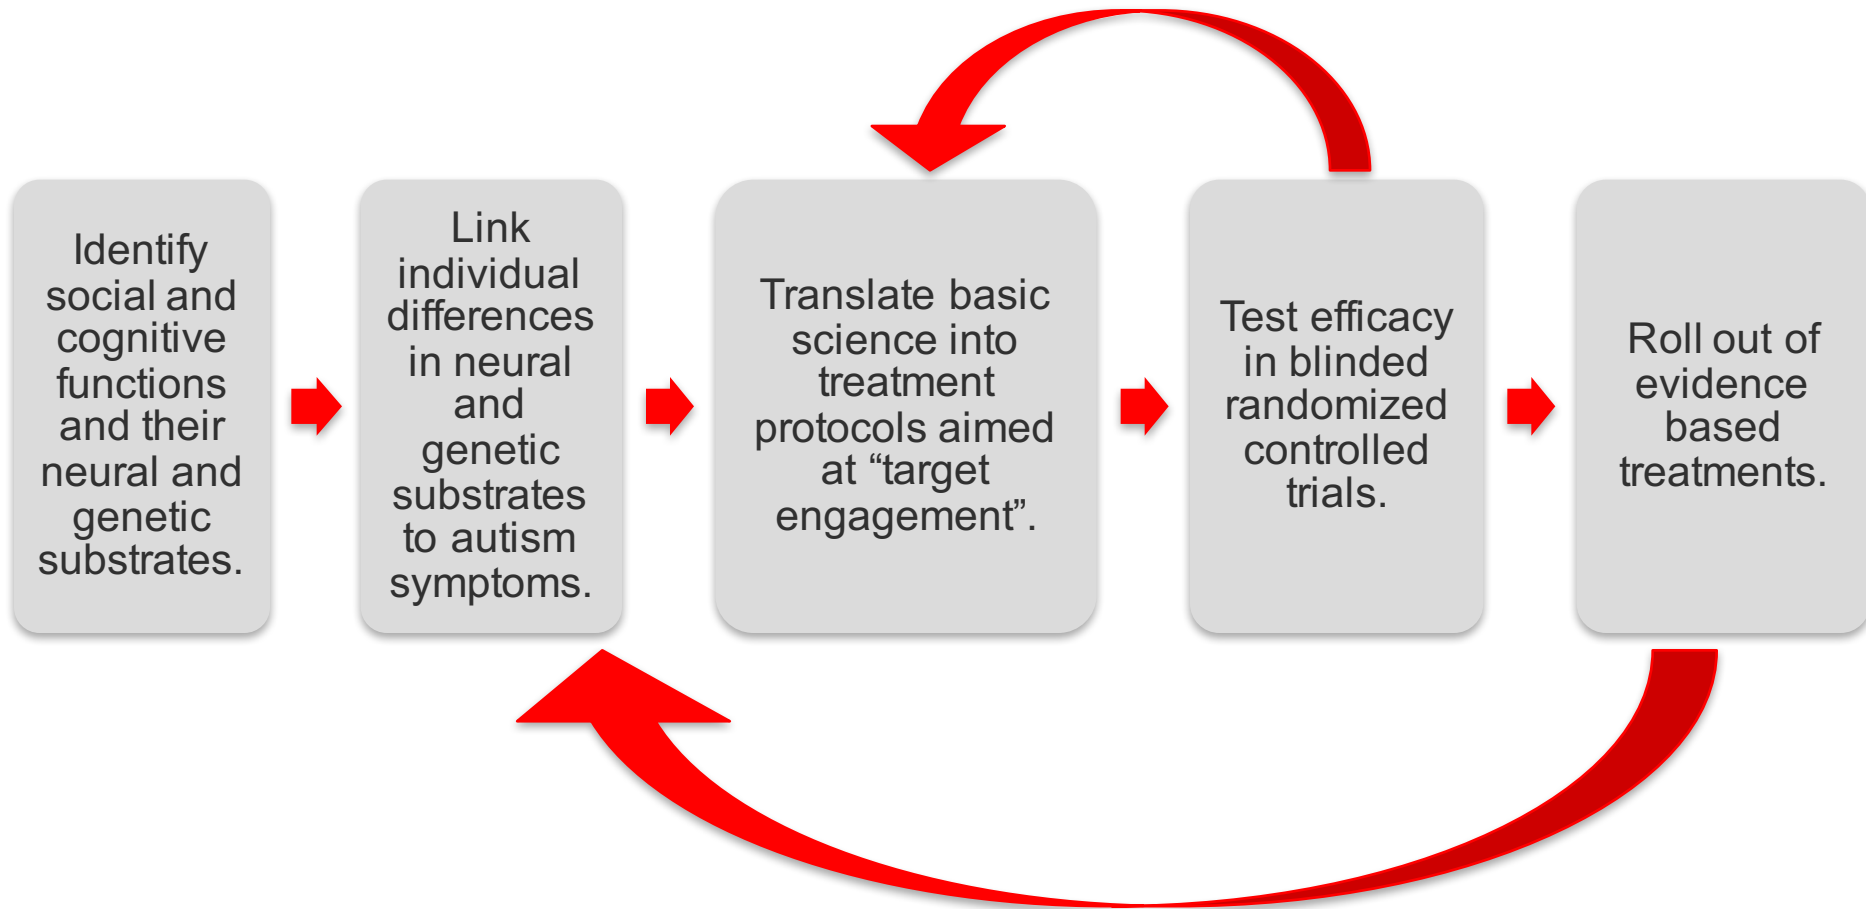

How do we translate basic science  
into real-world tools aimed at  
“target engagement”?

# Experimental Therapeutics

## IMPRECISION MEDICINE

For every person they do help (blue), the ten highest-grossing drugs in the United States fail to improve the conditions of between 3 and 24 people (red).

### 1. ABILIFY (aripiprazole) Schizophrenia

### 2. NEXIUM (esomeprazole) Heartburn

### 3. HUMIRA (adalimumab) Arthritis

### 4. CRESTOR (rosuvastatin) High cholesterol

### 5. CYMBALTA (duloxetine) Depression

### 6. ADVAIR DISKUS (fluticasone propionate) Asthma

### 7. ENBREL (etanercept) Psoriasis

### 8. REMICADE (infliximab) Crohn's disease

### 9. COPAXONE (glatiramer acetate) Multiple sclerosis

### 10. NEULASTA (pegfilgrastim) Neutropenia

Based on published number needed to treat (NNT) figures. For a full list of references, see Supplementary Information at [go.nature.com/4dr78t](http://go.nature.com/4dr78t).

If you have met one person with autism...

I thank the participants and their families for participating in our research.

I thank my colleagues who make this work successful and fun.
